

CFI ACADEMY PROGRAM

Most careers in aviation are begun as instructors. Here's the best way to start.

American Flyers graduates nearly 20% of the new instructors in the United States each year. You'll be trained as both FAA Airplane and Instrument Instructor within 30 days, but most important you'll be qualified to teach day one after completion. Your confidence will be further enhanced because of the constant emphasis on practice teaching throughout your classroom and flight training. Simply the best program and value offered anywhere.

Our academy training concept is

adopted from the USAF's world renowned educational system where small groups, "flights", of up to fifteen people work together to achieve their goals. The benefits are huge, the camaraderie great. There is not a faster, higher quality educational program in existence.

We graduate more instructors than anyone, but what's most important is not what we've done for others, but what we can do for you. Personal attention. Quality education. Proven results.
